

WORKSHOP HOST PROPOSAL

Thank you for your interest in partnering with the Rocky Mountain Sustainable Living Association as a Workshop Host. Our Workshop Coordinator, Bryan Birch, will contact you directly regarding your interests described in this proposal. RMSLA's year-round Workshop Programs are new for 2008 and we welcome your ideas, feedback and creativity.

Workshop Host Details

Host Location (city, county, state). Is this a business, residence, or both?

Preferred season to host workshops: Spring Summer Fall Winter

The responsibilities of RMSLA workshop hosts vary from workshop to workshop. Many times, workshop hosts are asked to pay for the hard costs of the installations on their property at the time of the workshop, while the labor of the installation is provided at no cost through the RMSLA/ host agreement. Please indicate what type of workshop (i.e. improvement to your property/ location) you wish to host and if you're willing to cover all, some, or none of the costs of the installation/ improvement to your property. Please describe any materials/ hardware/ or other supplies you could provide to a workshop to offset costs of the installation/ improvement.

Please indicate any equipment, tools, workshop space, classroom space, tents, seating, lodging or other amendments you would offer the RMSLA as a workshop host. How many people could your location comfortably host?

Is there any additional information you'd like to share with the RMSLA about why your location would be a great fit for our year-round workshop programs?
